Dear Tfc Edmonson:

Relative to your accident of June 26, 1983, it is noted on the report and investigation that you were at fault when you were responding to assist the Denham Springs PD and attempted to cross the median and struck a light pole that was in the grass.

In view of the above, I am writing you this letter of reprimand and informing you that disciplinary action will be administered to you if such recurs.

I recommend that in the future you take all precaution in the operation of your unit to avoid accidents of this kind.

Sincerely,
