Dear Lieutenant Edmonson:

Relative to your accident of September 30, 1990, it is noted on the report and investigation that you were at fault. You were attempting to park on a parking strip in front of another vehicle when an unknown vehicle behind you blew the horn. You looked to the rear and while doing so, struck the left front bumper of the parked vehicle.

In view of the above, I am writing you this **letter of reprimand** and informing you that further disciplinary action will be administered should such recur.

I recommend that in the future you exercise care and caution in the operation of your unit to avoid accidents of this kind.

Sincerely,

Marlin A. Flores, Colonel
Deputy Secretary
